Notes from the Producer

Back in August of 2006, at a meeting of people who wanted to be involved with theatre, when the students were asked what type of show they would like to do, a "chorus" arose: "Musical"-wanting the students to have the best possible tutelage in the area of musical theatre, I turned to two dear friends and colleagues: Terrance McKerrs and Mary Baker. I knew, having worked with this team on many occasions, that any production they committed to would be 1st class-The product of that student request of last year, is what you are going to enjoy this evening...was it a wise decision to take on this huge, unwieldy project-with the ostensible "tech week" being spring break-with students not able to attend rehearsals as often as we would have liked due to their many OU activities? The product will tell-we are also blessed to have some of the finest guest talent from Baldwin, Gardner, Ottawa, Topeka, & Lawrence join with us to set the bar very high for the students. Even our OU President: Dr. Snow came along for the ride. As the producer of this project, I couldn't be more proud, -enjoy!
